

Open Gear

9000-9001 PYROSHIELD® Syn-Gear Lubricant Advanced lubricant technology providing unique synthetic lubricants for shrouded open gears and other open gears of similar application. LE'S PYROSHIELD® Syn-Gear Lubricants have been formulated to provide heavy synthetic fluids designed to withstand heavy shock loading.

- Heavy synthetic fluids to withstand heavy shock loading
- Provides superior protection for open gears
- Can be applied manually or through automatic spray lubrication systems
- Non-asphaltic and environmentally safe
- Offers outstanding wear protection
- Good low temperature pumpability
- Reduced wear
- Reduce gear temperatures
