

## Worm Gear

### 460/680 ALMASOL® Worm Gear Lubricant

Formulated with 100% mid-continent paraffinic base oils blended with stable lubricity additives and ALMASOL® to provide protection over a wide temperature range.

- For all gearboxes that require a compounded worm gear lubricant
- Protects worm gears and bronze parts
- Formulated with paraffinic base stocks, carefully blended with ALMASOL® and other additives for excellent lubricity, film strength and load carrying ability
- USDA H2
- Meets AGMA 9005-094 requirements for R & O oils and for compounded oil
- Superior wear protection
- Oxidation resistance superior to commercial grade worm gear oils
- Passes demulsibility test that commercial worm gear oils fail

### Technical Information

#### Product Information

4007-4008 QUINPLEX® White Worm Gear Lubricant Food grade H1 lubricants designed for use in worm gear applications where superior anti-wear, rust and oxidation resistant properties and H1 performance is desired

- NSF/USDA H1 food grade worm gear lubricants
- Formulated with USP white food grade oils
- Unmatched anti-corrosion and wear performance
- Contains QUINPLEX®, LE's exclusive additive that enhances lubricant performance
