

Low Tox Oils

6411-6414 LOW TOX® Turbine Oil Exceeds performance of premium turbine oils; low ecotoxicity for environmental concerns. Low order of toxicity compared to standard commercial turbine oils and biodegradable turbine oils. Meets or exceeds OEM requirements for many generators, turbines and governors.

- For use where environmental concerns dictate the use of a very low toxicity oil
- Long lasting
- Reduced ecotoxicity
- Excellent wear protection
- Out performs conventional turbine oils
- Provides wear protection and temperature reduction performance where vegetable based and other synthetic biodegradable oils fall short

Technical Information

Product Information

6601-6603 LOW TOX® Hydraulic Oil Low toxicity hydraulic oil with advanced product technology. Performs equivalent to premium hydraulic fluids, yet has low ecotoxicity for environmental concerns. Low order of toxicity compared to standard commercial hydraulic oils and biodegradable hydraulic fluids.

- Provides wear protection and temperature reduction performance where vegetable based and other synthetic biodegradable oils fall short
- For use where environmental concerns dictate the use of a very low toxicity oil
- Long lasting
- Reduced ecotoxicity
- Excellent wear protection
- Outperforms conventional hydraulic oils
- Contains MONOLEC®, LE's exclusive wear-reducing additive
