

Passenger Car

1150 TRANS-ALL EHP Automatic Transmission FluidA versatile extra high performance automatic transmission fluid for use in Allison transmissions, which require the use of TranSynd[®]; TES-295 type fluids.

- Treated with the highest possible additive levels, providing longer effective fluid life and unmatched protection against wear
- Written approval for use where Exronn III, Mercon, Mercon V, Allison C-4 are required
- Unmatched in its ability to reduce friction and wear
- Smoother shifting
- Reduced water on transmission parts
- Longer effective fluid life
- Significant decrease in maintenance cost
- Subjected to strenuous testing to assure superior performance
- Suitable for use in Chrysler ATF +3 & AATF +4 application
- Superior lubrication
- High oxidation resistance
- Protection from rust and corrosion
- Protection against wear
- Non-foaming
- Repaid heat transfer
- Preservation of seals
- Excellent low temperature fluidity
