

Heavy Duty Trucks

650 LE-CD 50 Transmission Fluid Synthetic transmission lubricant to meet all of the requirements for Eaton/Fuller and Rockwell Corporation extended warranty coverage

- Reduced friction
- Control of rust and corrosion
- Foam prevention
- Seal compatibility

7500 MONOLEC® Power Fluid In the field, on the road, at the site - today's heavy-duty applications mean a hard-working fleet has to take the heat like never before. That is exactly why those tractors, buses, and dozers need the heavy-duty protection of LE's 7500. An advanced concept in the lubrication of combination gear-hydraulic (wet brake) systems. Highly versatile, designed to meet the unusual operating needs of most combination gear-hydraulic systems and transmissions.

- Meets Caterpillar TO-2 and Allison C-4 performance requirements
- Lowers operating temperatures
- Controls rust and corrosion
- Foam prevention
- Seal compatibility
- Reduces pump & gear wear
- Resists oxidation
- Contains MONOLEC®, LE's exclusive wear-reducing additive

Technical Information

Product Information

7510/7530/7550 Power Transmission Fluid

(CAT TO-4) Heavy-duty, high performance power transmission fluids formulated for use in transmissions, final drives, and wet breaks of equipment requiring fluid that meets the Caterpillar TO-4 or Allison C-4 specification as well as certain manual transmissions.

- Heavy-duty, high performance
- Control of rust and corrosion
- Foam prevention
- Seal compatibility
- For use in transmissions, final drives, and wet brakes of equipment with Caterpillar TO-4 or Allison C-4 specifications
- Excellent friction properties, gear protection and resistance to oxidation
