

About Us

Berkeley Petrochemicals was founded to cater to the needs of Indian Industrial markets in the field of Industrial maintenance products. At Berkeley Petrochemicals we are proud to be Industrial Visionaries.

The team at Berkeley Petrochemicals is very familiar with servicing customer's needs at very short notice. Whilst the quality of the product is of paramount importance it is of little value if the back up service of supply and technical support is lacking. Berkeley firmly believes the service industry has to position itself to service customer requirements 24 hrs a day. Berkeley's intention is to "be there" when the customer calls at anytime around the clock.

Berkeley Petrochemicals is proud to represent the LE brand in the Indian Sub-Continent.

Berkeley Petrochemicals is the sole and exclusive marketing associate of Lubrication Engineers International for the Indian Sub-Continent. LE (Lubrication Engineers) is the worldwide leader in lubrication solutions and manufacturer of the renowned LE brand of products.

We are committed to provide the best Industrial solutions from LE conduct lube surveys, help in changeover and monitor performance etc. Hence, you can be assured of best technical support from us in specialty lubricant requirement.

- Berkeley Petrochemicals have developed a strong network of Channel partners across the Indian Sub-continent to cater to the requirements of Industrial customers. To support our channel partners we have a team of qualified and trained engineers managed by committed managers at various locations in the region.
- This highly experienced group of Channel partners markets & sells LE products within their own territories with the constant support of Berkeley Petrochemicals and Lubrication Engineers. This successful network is constantly expanding, with new channel partners continually accepting "LE Opportunity."

Since it began in 1951, LE has recognised & fulfilled the requirement for heavy-duty, high performance, quality lubricants that exceed the capabilities of ordinary, commercial, synthetic & speciality grade lubricants.

Feedbacks & industry case studies including customer testimonials from around the world show that LE lubricants consistently deliver better performance than other premium grade lubricants.

By extending lubrication intervals & equipment life as well as significantly reducing wear, energy requirements, downtime & maintenance costs, the initial cost of LE lubricants is consistently recovered many times over. LE's Philosophy "We at LE strive deliberately to design the world's finest lubricants, in order to achieve the highest possible level of performance, without regard to the cost of base oils or additives, or the price for which such lubricants must sell. They must be unique, exclusive & proprietary to LE and must deliver to the user a value far greater than he can obtain from other products for the same application."
